

公司简介

作为**康明斯（CUMMINS）官方授权经销商**，十堰雷曼汽车零部件有限公司扎根中国车城十堰，专注于为商用车、工程机械及柴油发动机行业提供原厂正品配件解决方案。我们由资深柴油机领域专家领衔的专业团队，凭借逾十年行业深耕经验，始终以客户需求为导向，通过精准的零部件供应与卓越的技术服务，助力客户保障运营时效并实现持续盈利。

全系列康明斯原厂配件

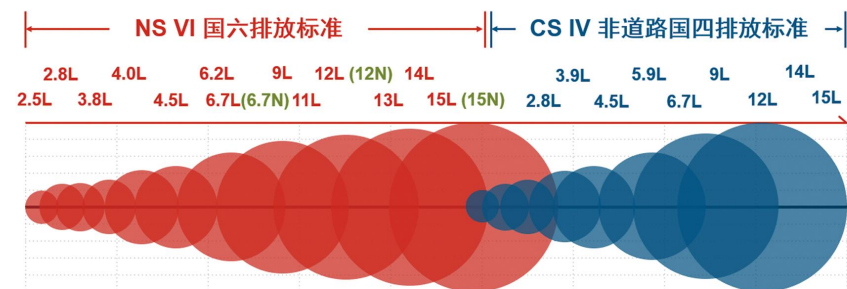

- 发动机核心组件
- 曲柄连杆机构
- 进气系统
- 配气机构
- 传动系统
- 燃油系统
- 冷却系统
- 润滑系统
- 传感器类
- 易损件
- 滤清器
- 排放处理系统

核心康明斯原厂发动机业务

- 越野车
- 城市公交
- 船舶动力
- 发电设备
- 天然气动力
- 客货两用机动车
- 轻中重型运输车辆
- 工程机械及矿山设备

产品优势

- 采用康明斯最新的材料、设计工艺和生产技术，完全符合康明斯发动机规格要求
- 更长的使用寿命，更低的保养费用，品质卓越、可靠
- 康明斯纯正零件完善的售后服务和保修政策，遍布全国的服务网络，异地联保
- 国际品质，本地价格，物超所值

- 功率范围：130 – 680hp (96 – 507 kW)
- 扭矩范围：330 – 3,200 N·m

- 功率范围：50 – 674 hp (37 – 503 kW)
- 扭矩范围：270 – 3,000 N·m

Cummins Inc.

POWER SOLUTIONS DESIGNED AROUND YOUR SUCCESS.

CUMMINS (CHINA) INVESTMENT CO., LTD.

Established on January 6, 1997, with its headquarters located in Chaoyang District, Beijing, **Cummins (China) Investment Co., Ltd.** is a wholly-owned subsidiary and core management institution of Cummins Group in China. As a global leader in power technology, Cummins China focuses on the research and development, production, and sales of diesel and natural gas engines, generator sets, and new energy power systems. It has deeply participated in China's industrialization process, with cumulative investments exceeding \$1 billion, and its business covers key areas such as engines, components, power systems, and hydrogen energy technologies.

Stay on top of trends, developments, and technologies that keep your business moving forward. In a world that's changing fast, we put our expertise to work for you—protecting uptime today and keeping you ready for whatever comes next.

Cummins Power Technology Co.,Ltd aims to provide customers with a complete set of components such as engines, radiators and air filters suitable for Gen-set. All coolpac components are designed and validated to Cummins design development standard, simple control, high reliability and long maintenance cycle. Ensure that customers can quickly import high-performance, high-reliability power generation products. Cummins coolpac helping the efficient conversion of power to electricity the products rely on advanced independent design, excellent manufacturing technology and perfect after-sales service system, and are widely used in many production and life scenarios around the world. In the future, CPT will design and produce more efficient and reliable coolpac with stronger R&D strength, making people's lives better by powering a more .

Cummins Emission Treatment System (China) Co., Ltd. ("CES" for short), established in 2008, belongs to Cummins' parts division. It has key operating institutions in the United States, China, India, the United Kingdom, Brazil, Germany, the Netherlands and South Africa to provide solutions for global OEMs, engine initial assembly and modification customers.

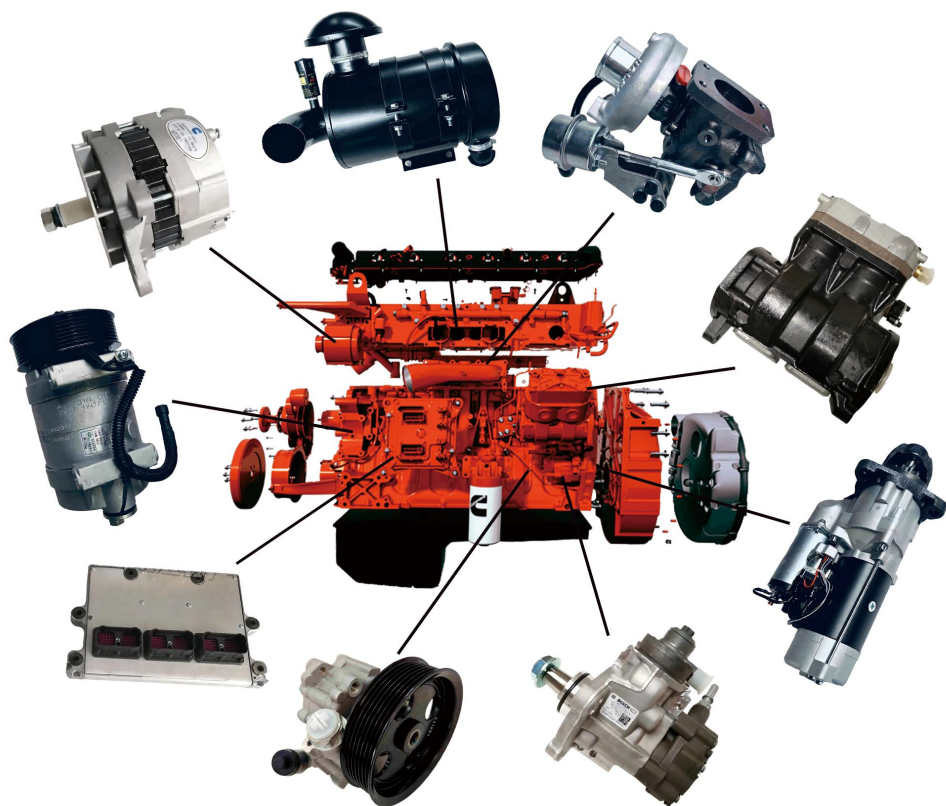

Cummins emission treatment system has been focusing on diesel engine emission treatment technology for more than 30 years. Its product applications span six continents around the world, including the European and North American markets with the most stringent emission regulations. It covers light, medium and heavy trucks and buses, agricultural machinery, construction machinery, high-horsepower machinery and other different road and off-road vehicle fields, and can perfectly match the design displacement of various transmitters from 2.8L to 95L. At present, the main global product technology experience of CES is as follows:

As an officially authorized Cummins Central Warehouse, we not only stock a full range of genuine parts for retail, wholesale, and service markets, but also, through direct collaboration with Cummins, offer original-equipment-level engine short cylinder blocks and long cylinder blocks, genuine complete engine assemblies, and powertrain components.

Under Cummins' authorization and within the framework of its constraints and support for our distribution services, we maintain industry-leading quality standards. Each and every product is provided by Cummins or its affiliated system companies and manufacturing facilities, guaranteeing that all offerings conform to the stringent global standards and exceptional durability of Cummins engines worldwide.

Furthermore, we are equipped to flexibly tailor a wide range of external component configurations to diverse engine operating scenarios, precisely addressing the operational requirements of varied customer equipment.
