

喷涂镀膜机 Coating Machine

通过喷涂工艺使PC砖长期保持鲜艳的颜色，阻隔了空气及水分与砖表面的水泥接触，不会产生返碱的现象，提升了抗污性。

By using spray coating technology, pavers can maintain their bright colors for a long time, blocking the contact between air, moisture, and cement on the surface of the bricks, without producing anti alkali phenomena, improving their resistance to dirt, and easy to clean.

适用于各种喷涂材料，喷涂流量可调，喷涂效果显著。

Suitable for various coating materials, with adjustable spraying flow rate and significant spraying effect.

真空吸吊
Vacuum lifter

真空吸吊可以吸取各种砖和路沿石，用于选取坏砖和更换新砖。

Vacuum lifter can vacuum suction various bricks and kerbstones for selecting damaged ones and replacing them with new ones.

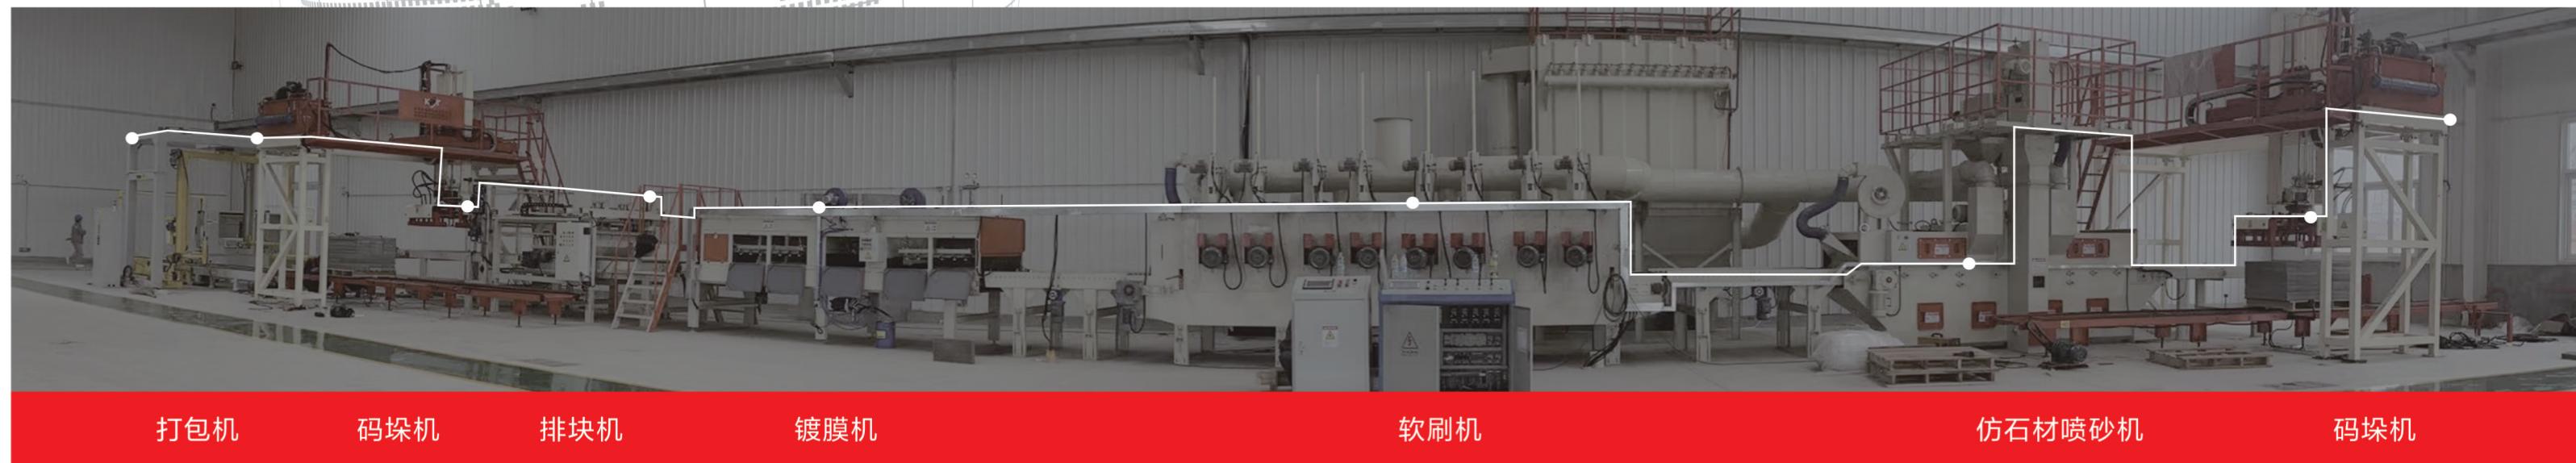

码垛机
Automatic stacker

码垛机可将不同型号砖机生产的不同品种、不同规格的砌块进行砖板分离、排块整理，最后组成一米左右的方垛进行交叉码垛。

The automatic stacker system can separate and arrange blocks of different varieties and specifications produced by different models of block machines, and finally form square stacks of about one meter for cross stacking.

CONCRETE PAVERS

全自动高端PC砖表面处理生产线

Automatic Surface Treatment Line for Pavers

江苏凯铂成机械有限公司是一家专业生产高端 PC仿石砖表面深加工和铺装设备，如高端 PC砖喷砂机、高端PC砖软刷扫光机、高端PC砖喷涂镀膜机、覆膜机、打包机、路沿石、大型砖块履带式铺装机等设备的生产厂家。

Jiangsu Kaibocheng Machinery Co., Ltd. is a professional manufacturer of high-end concrete pavers and slabs surface treatment machine and paving equipment, such as high-end shot blasting machine, curling machine, coating machine, laminating machine, strapping machine, crawler type kerbstone and large pavers installation machine and other equipments.

PC砖/石材喷砂机

Shot Blasting Machine

技术参数 Technical Parameter

机器型号	Model	KBC1050-2S	KBC1050-3S	KBC1300-2S	KBC1300-3S
可加工宽度	Working Width	900mm	900mm	1200mm	1200mm
可加工高度	Working Height	≤200mm	≤200mm	≤200mm	≤200mm
抛丸器功率	Turbine Power	7.5kw	7.5kw	7.5kw	7.5kw
皮带速度	Belt Speed	0-5m/min	0-5m/min	0-5m/min	0-5m/min

应用场景 Application

PC砖/石材软刷机

Curling Machine

通过高速旋转的软刷对抛丸后的砖或者表面带有纹理的砖进行软刷，使其表面光滑，并具有防污、防潮、防滑等特性。

By using a high-speed rotating soft brush to curling the shot blasted paver bricks or slabs with textured surfaces, making its surface smoothly and have anti dirty, moisture-proof, anti slip.

PLC控制，除尘效果好，操作简单，运行稳定。

PLC control, good dust removal effect, simple operation, stable operation.

技术参数 Technical Parameter

机器型号	Model	KBC1050-8S	KBC1300-8S
可加工宽度	Working Width	900mm	1200mm
可加工高度	Working Height	≤150mm	≤150mm
抛丸器功率	Turbine Power	7.5kw	7.5kw
皮带速度	Belt Speed	0-5m/min	0-5m/min
