

## Handy Vibrator (Surface Finish, External)

### » Features

1. Durable aluminum die cast motor case.
2. Teflon coated motor parts prevent adhesion of concrete for easy cleaning.
3. Double Insulated motor design for safety.
4. Anti-vibration handle design.

### » Application

G32DPS(J)

G32DP(J)

GKCA(J)

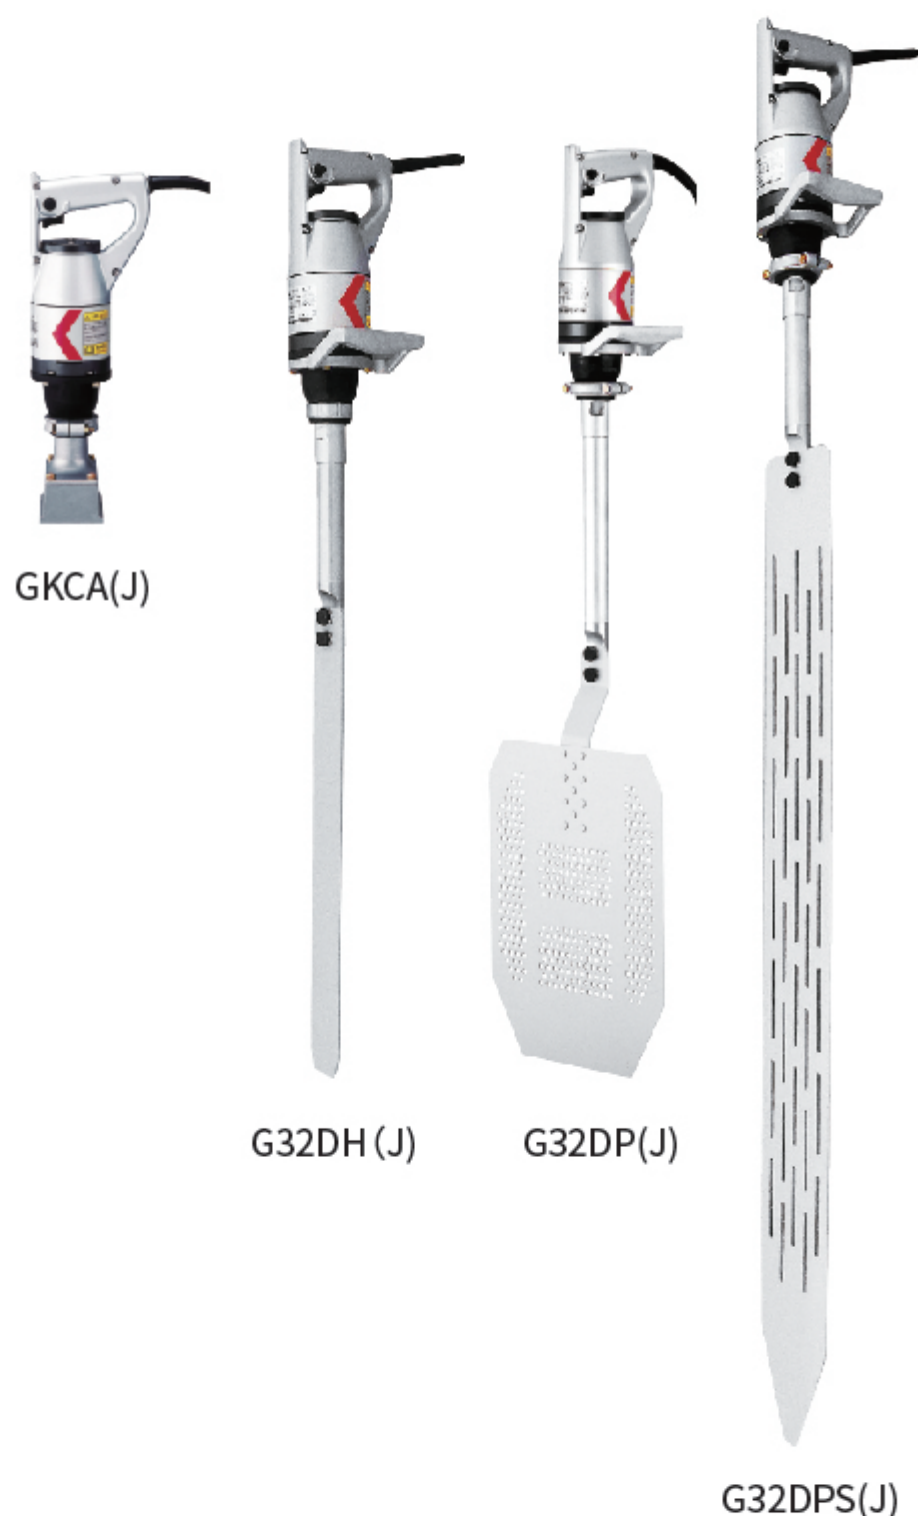

G32DH(J)

G32DPS(J)

G32DPS(J)

G32DPS(J)

### » Specifications

| Model     | Output (W) | Voltage (V) | Current (A) | Frequency (Hz) | Total length (mm) | Head size (mm) | weight (kg) |
|-----------|------------|-------------|-------------|----------------|-------------------|----------------|-------------|
| G32DH(J)  | 280        | 230         | 2.2         | 225-275        | 1,070             | 50x500         | 5.6         |
| G32DP(J)  |            |             |             | 225-275        | 1,138             | 300x400        | 7.5         |
| G32DPS(J) |            |             |             | 205-280        | 1,739             | 120x1219       | 7.8         |
| GKCA(J)   |            |             |             | 160-200        | 404               | 76x113         | 4.7         |
