Zhengzhou City, Henan Province, China.

COMPANY INTRODUCTION

公司简介

The Global Leader in Building & Road Construction Technology

AIMIX GROUP delivers smart, safe, and sustainable solutions across the construction value chain from quarrying to urban renewal. Our integrated equipment ecosystem – spanning ANDAMINE' s crushing systems, AIMIX' s concrete plants, MACROAD' s paving technology, and AICRANE' s heavy lifting – ensures end-to-end coverage of infrastructure needs, while reducing total cost of ownership by 25-40%.

Build A Better World Together

AIMIX - Concrete Production

Faced with the global trend of industrialization, greening and intelligence in construction, the concrete production industry has opened up multiple scenario demands such as road construction, commercial ready-mixed concrete, and prefabricated components, achieving efficient resource circulation and low-carbon transformation from raw material mining to construction terminals.

- Concrete Batching Plants
- Concrete Pumps
- Self-loading Concrete Mixer

FULL AUTOMATIC DRY MORTAR PLANT

10-100TPH

SIMPLE DRY MORTAR PLANT NEW INVESTMENT BUSINESS

3-10TPH

10,000 +

Customers' First Choices

200,000 m²

Area of Factory

100 +

Exporting Countries

7 +

Branches

12 Years'

Production R&D experience

40 +

Techniques and Service team

CONCRETE BATCHING PLANT- BELT TYPE

MODEL: AJ60, AJ90, AJ120, AJ180, AJ240

Concrete Batching Plant-Bucket type
MODEL: AJ25, AJ35, AJ50, AJ75.

Mobile Concrete Batching Plant
MODEL: AJY25,AJY35, AJY60,AJY90.

Mobile concrete batching plant - Twin shaft mixer (25-35m3/hour)

Mobile concrete batching plant - Drum type mixer (25-60m3/hour)

SELF-LOADING MIXER TRUCK

Upgraded model:AS-3.5H, AS-4.0H

Model: AS-1.2, AS-1.8, AS-2.6A/C, AS-3.5A/B/C, AS-4.0A/B/C, AS-5.5, AS-6.5.

CONCRETE MIXER PUMP

Production capacity:
30-40 m3/hour

CONCRETE TRAILER PUMP

Production Capacity: 30-90 m3/hour

COMBINED USING

Self-loading concrete mixer with trailer concrete pump

MACROAD - Road and Bridge Construction

In response to global population growth and the need for infrastructure up-grades, the road construction industry is leveraging an integrated solution that combines intelligent equipment, green material processes, and full lifecycle management.

- Mobile Drum Asphalt Mix Plant
- Drum Asphalt Mix Plant
- Batch Asphalt Mixing Plant

STATIONARY DRUM TYPE ASPHALT MIXING PLANT

Production capacity: 40 - 200 TPH

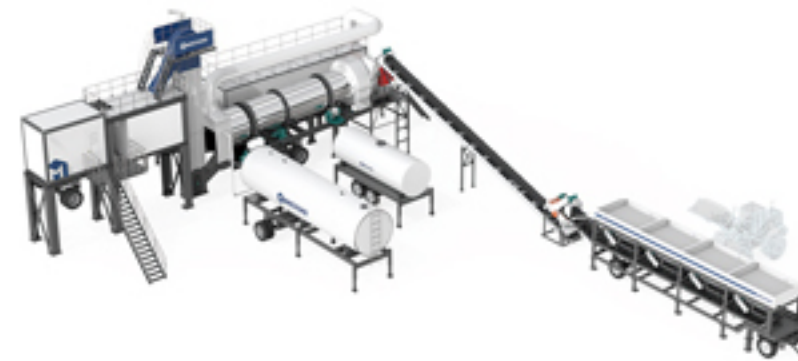

STATIONARY BATCH TYPE ASPHALT MIXING PLANT

Production capacity: 60 - 320 TPH

MOBILE DRUM TYPE ASPHALT MIXING PLANT

Production capacity: 40 - 200 TPH

MOBILE BATCH TYPE ASPHALT MIXING PLANT

Production capacity: 60 - 160 TPH

ANDAMINE - Material Processing

The material processing industry is driving resource upgrading through intelligent crushing and sorting, reshaping industrial value with green processes, and enabling lean operations with digital technology. It is emerging as a key supporting industry for the global low-carbon economy and circular society. In the future, its solutions will further evolve towards cross-material collaboration, full-chain carbon management, and autonomous optimization through artificial intelligence, unlocking a sustainable development market worth trillions.

• Mobile Combined Crusher Plant

• Mobile Impact Crusher Plant

• Crawler Mobile Crusher Plant

APJ-E Jaw crusher

APJ-V Jaw Crusher

APF Type Impact crusher

APF-H Type Impact crusher

Cone crusher

Sand Washing Machine

Vibrating Feeder

Vibrating screen

STATIONARY CRUSHING PLANT

Production capacity: 30-800 tons/h

VSI series sand making crusher

MOBILE CRUSHING PLANT - TIRE TYPE

Production capacity: 30-300tons/h

MOBILE CRUSHING PLANT - CRAWLER TYPE

Production capacity: 30-300tons/h
