The patented push logging saw can avoid the clamping saw" phenomenon of traditional saws such as chainsaws.

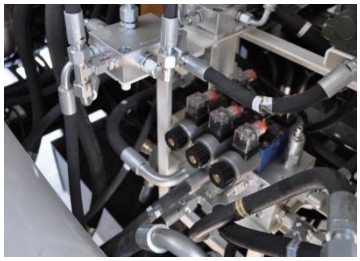

The multi-dimensional adjustable tree-trimming he ad that has been granted a patent for invention can flexibly grasp and cut tree branches.

Automatically lifting branch cutting head support frame, facilitating machine transition between work sites

Selected international brand Danfoss intelligent feedback hydraulic pump, featuring reliable performance and sensitive response

Selected international brand HYDRAFORSE and SUN valve cores, with independently designed and manufactured hydraulic control system

Selected Italian remote controller, enabling remote operation with reliable performance and sensitive response

Linked hydraulic outriggers with one-button extension and support function

Logging arm storage and traveling posture

Type	RWQ5040TYHZZ	Type	RWQ5040TYHZZ
Logging structure		Total quality	4495kg
Logging diameter	φ200mm(Customized)	Vehicle chassis	
Arm span height	12m	Manufacturer	Jianghuai Automobile
Saw blade speed	3200rpm	Vehicle brand	Junling
Grabbing Weight	100kg	Type	Class II chassis,National VI
Special vehicle		Tire type	6.50R16
Speed	100km/h	Number of axles	2
Outline dimension	5445x2010x2560mm	Number of passengers allowed	2
Assembly quality	4365kg
