河北鑫亿丰液压机械有限公司

Hebei Xinyifeng Hydraulic Machinery Co., Ltd

Hebei Xinyifeng Hydraulic Machinery Co., Ltd. was founded in 2010. It is a physical enterprise integrating professional R&D, production, and sales. The company is located in the Industrial Zone of Dalucun Town, Ningjin County, Xingtai City, Hebei Province.

We mainly produce BZZ full hydraulic steering gears, cycloid hydraulic motors, and stator-rotor pairs for full hydraulic steering gears. Boasting a strong technical team and advanced production & testing equipment, our products are widely used in agricultural machinery manufacturing, engineering machinery, winches, injection molding machinery, fishing vessel machinery, auto parts transmission, and other industries. We can design and develop various hydraulic products according to customers' requirements to keep up with the latest industry trends and market demands.

For more than a decade, we have adhered to the business philosophies: "Reputation First, Customer Supreme" and "Pursue Excellence, Manufacture Premium Products". We keep striving for customer satisfaction and create value for users with outstanding quality.

New and existing customers are warmly welcome to visit our factory for inspection and business negotiation.

Yifeng Hydraulic — Looking forward to cooperating with you!
